

Strategies for Success

Student Name: _____ Grade: _____ Date: _____

Dear Parent/Guardian:

Citrus Valley High School wants your student to be successful in all of their classes. The strategies listed below have been designed to increase home/school communication and make you aware of the intervention opportunities provided here at CVHS.

- * **Agendas** - CVHS provides each student with an agenda at the beginning of the school year. *Successful students* write down their daily assignments and have their *teacher* initial this information. At home, the *parent/guardian* initials that the assignment has been completed and can write down any concerns they may have about the assignment. Two-way communication is a key to success ☺
- * **Friday Reports** are available from the counseling office. *Successful students* pick this form up in advance and have it signed by their *parent/guardian* before requesting that each *teacher* complete it on Friday. This information allows you to monitor progress in your student's classes on a weekly basis and is a key to success ☺
- * **Notebooks** that are dedicated to schoolwork are another important strategy. *Successful students* have dividers for each subject and keep their notes organized for easy access. ☺
- * **Tutoring** is available on block schedule, Wednesdays and Thursdays, during S.O.A.R. time. *Successful students* ask their teacher if extra help is available before school, or after school.
- * **Website** - Please visit our website at www.cvh.redlandsusd.net to find lots of information including links to our daily bulletin and e-mails for all our staff members.

Parent Signature (if appropriate) _____
